

T. Rowe Price Institutional U.S. Structured Research Fund

Supplement to Summary Prospectus Dated May 1, 2019, as supplemented

T. Rowe Price Institutional Global Focused Growth Equity Fund

T. Rowe Price Institutional Global Growth Equity Fund

Supplement to each Fund's Summary Prospectus Dated March 1, 2019

On July 31, 2019, the Boards of Directors of the T. Rowe Price Institutional U.S. Structured Research Fund, the T. Rowe Price Institutional Global Focused Growth Equity Fund, and the T. Rowe Price Institutional Global Growth Equity Fund (each an “**Institutional Fund**” and together, the “**Institutional Funds**”) approved plans of reorganizations pursuant to which each Institutional Fund will transfer substantially all of its assets and liabilities to a corresponding T. Rowe Price mutual fund (each a “**Retail Fund**” and together, the “**Retail Funds**”) in exchange for I Class shares of equal value of the applicable Retail Fund as set forth in the table below.

| Institutional Funds | Retail Funds | Expected Closing Date |
|---|---|------------------------------|
| T. Rowe Price Institutional U.S. Structured Research Fund | T. Rowe Price U.S. Equity Research Fund (prior to July 1, 2019, named the T. Rowe Price Capital Opportunity Fund) | November 25, 2019 |
| T. Rowe Price Institutional Global Focused Growth Equity Fund | T. Rowe Price Global Stock Fund | November 25, 2019 |
| T. Rowe Price Institutional Global Growth Equity Fund | T. Rowe Price Global Growth Stock Fund | November 18, 2019 |

Each reorganization is expected to be consummated on or about the date indicated in the above table and will not require approval by the Institutional Fund's shareholders. Following the transfer, the I Class shares received in the exchange will be distributed to each Institutional Fund's shareholders in complete liquidation of the Institutional Funds. Each Institutional Fund and its corresponding Retail Fund have identical investment objectives and investment programs, the same portfolio manager(s) and similar performance history. To allow for potentially greater economies of scale and to reduce inefficiencies resulting from substantially duplicate products, the Boards of Directors determined that (i) participation in the transactions is in the best interest of shareholders of each Institutional Fund and Retail Fund and (ii) the interests of existing shareholders will not be diluted as a result of the transactions.

The reorganizations will not be taxable events, but redeeming or exchanging shares of an Institutional Fund prior to its reorganization may be a taxable event depending on your individual tax situation. Detailed information about the reorganization will be provided to shareholders in an information statement to be mailed on or around September 17, 2019.

NO SHAREHOLDER ACTION IS REQUIRED AS A RESULT OF THE REORGANIZATIONS.

In anticipation of the reorganizations, each Institutional Fund will close to new accounts on October 31, 2019 and will no longer accept purchases of additional shares from existing shareholders on November 8, 2019. Accordingly, on pages 5-6 of each Institutional Fund's summary prospectus, the following is added under "**Purchase and Sale of Fund Shares**":

Effective at the close of the New York Stock Exchange on Thursday, October 31, 2019, the fund will be closed to new investors and new accounts, subject to certain exceptions. Investors who already hold shares of the fund at the close of business on Thursday, October 31, 2019, will be permitted to continue to purchase additional shares through November 8, 2019. Effective at the close of the New York Stock Exchange on Friday, November 8, 2019, the fund will no longer accept purchases of additional shares from existing shareholders.

The date of this supplement is August 1, 2019.

E101-041-S 8/1/19

T. ROWE PRICE INSTITUTIONAL U.S. STRUCTURED RESEARCH FUND

Supplement to Summary Prospectus Dated May 1, 2019

Effective June 1, 2019, the fund's management fee is being reduced from 0.50% to 0.33%.

To reflect the new management fee rate, effective June 1, 2019, the fee table and expense example on page 1 are revised as follows:

Fees and Expenses of the Fund

| Annual fund operating expenses (expenses that you pay each year as a percentage of the value of your investment) | |
|--|-------------------------|
| Management fees | 0.33% ^a |
| Other expenses | 0.05 |
| Total annual fund operating expenses | 0.38^a |

^a Restated to reflect current fees.

Example This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods, that your investment has a 5% return each year, and that the fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

| 1 year | 3 years | 5 years | 10 years |
|--------|---------|---------|----------|
| \$39 | \$122 | \$213 | \$480 |

The date of this supplement is May 15, 2019.

SUMMARY PROSPECTUS

May 1, 2019

TRISX

T. ROWE PRICE

Institutional U.S. Structured Research Fund

The Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the adequacy of this prospectus. Any representation to the contrary is a criminal offense.

Before you invest, you may want to review the fund's prospectus, which contains more information about the fund and its risks. You can find the fund's prospectus, shareholder reports, and other information about the fund online at troweprice.com/prospectus. You can also get this information at no cost by calling **1-800-638-8790**, by sending an e-mail request to info@troweprice.com, or by contacting your financial intermediary. This Summary Prospectus incorporates by reference the fund's prospectus, dated May 1, 2019, as amended or supplemented, and Statement of Additional Information, dated May 1, 2019, as amended or supplemented.

Beginning on January 1, 2021, as permitted by SEC regulations, paper copies of the T. Rowe Price funds' annual and semiannual shareholder reports will no longer be mailed, unless you specifically request them. Instead, shareholder reports will be made available on the funds' website (troweprice.com/prospectus), and you will be notified by mail with a website link to access the reports each time a report is posted to the site.

If you already elected to receive reports electronically, you will not be affected by this change and need not take any action. At any time, shareholders who invest directly in T. Rowe Price funds may generally elect to receive reports or other communications electronically by enrolling at troweprice.com/paperless or, if you are a retirement plan sponsor or invest in the funds through a financial intermediary (such as an investment advisor, broker-dealer, insurance company, or bank), by contacting your representative or your financial intermediary.

You may elect to continue receiving paper copies of future shareholder reports free of charge. To do so, if you invest directly with T. Rowe Price, please call T. Rowe Price as follows: IRA, nonretirement account holders, and institutional investors, **1-800-225-5132**; small business retirement accounts, **1-800-492-7670**. If you are a retirement plan sponsor or invest in the T. Rowe Price funds through a financial intermediary, please contact your representative or financial intermediary, or follow additional instructions if included with this document. Your election to receive paper copies of reports will apply to all funds held in your account with your financial intermediary or, if you invest directly in the T. Rowe Price funds, with T. Rowe Price. Your election can be changed at any time in the future.

Investment Objective

The fund seeks to provide long-term capital growth by investing primarily in U.S. common stocks.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the fund. You may also incur brokerage commissions and other charges when buying or selling shares of the fund, which are not reflected in the table.

Fees and Expenses of the Fund

| Annual fund operating expenses (expenses that you pay each year as a percentage of the value of your investment) | |
|---|-------------|
| Management fees | 0.50% |
| Other expenses | 0.05 |
| Total annual fund operating expenses | 0.55 |

Example This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods, that your investment has a 5% return each year, and that the fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

| 1 year | 3 years | 5 years | 10 years |
|--------|---------|---------|----------|
| \$56 | \$176 | \$307 | \$689 |

Portfolio Turnover The fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when the fund's shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the fund's performance. During the most recent fiscal year, the fund's portfolio turnover rate was 47.3% of the average value of its portfolio.

Investments, Risks, and Performance

Principal Investment Strategies The strategy attempts to create a portfolio with similar characteristics to the Standard & Poor's 500 Stock Index[®] (S&P 500 Index) with the potential to provide excess returns relative to the Index. The fund uses a disciplined portfolio construction process whereby it weights each sector and industry approximately the same as the S&P 500 Index. Within each sector and industry, the weighting of individual fund holdings can vary significantly from their weighting within the S&P 500 Index. The fund, which may be considered an "enhanced index" fund, attempts to outperform the S&P 500 Index by overweighting those stocks that are viewed favorably relative to their weighting in the Index, and underweighting or avoiding those stocks that are viewed negatively. The fund may also

purchase stocks that are not in the S&P 500 Index, but at least 80% of the fund's total assets will normally be invested in stocks that are in the S&P 500 Index at the time of purchase.

A portfolio oversight team is responsible for the overall structure of the fund and for developing rules for portfolio construction. The portfolio oversight team seeks to take advantage of T. Rowe Price's fundamental research by assigning equity analysts to select stocks for the fund within industries where they have focused expertise. The equity analysts are directly responsible for selecting stocks and determining the stocks' weights within their industry-specific portfolios. The analysts actively select stocks from the industries they cover based on fundamental research, which considers various factors such as the quality of a company's management team and its business franchise, earnings growth potential of a company and its market sector, and valuation. The fund's portfolio oversight team maintains responsibility for evaluating the performance of the overall portfolio and the analysts' stock selections, tracking and aligning the fund's risk characteristics with those of the S&P 500 Index, monitoring the portfolio's exposures to industries and sectors, managing cash flows into and out of the fund, and ensuring overall compliance by the analysts with the fund's portfolio construction principles. The portfolio oversight team is responsible for selecting stocks that meet the fund's investment criteria, but have not yet been assigned to an analyst.

Because the fund is designed to have similar characteristics to the S&P 500 Index, there is expected to be a relatively close correlation between the fund's performance and the performance of the Index in both rising and falling markets. However, when compared to a fund that follows a strict indexing strategy, there is a much greater chance that the fund's performance will deviate from the Index (referred to as "tracking error") and the potential for higher portfolio turnover, which increases the possibility of taxable distributions to shareholders and results in higher transaction costs to the fund.

The fund will generally remain fully invested (less than 5% in cash reserves) and seeks to be sector neutral when compared to the S&P 500 Index. While the majority of assets will be invested in large-capitalization U.S. common stocks, small- and mid-capitalization and foreign stocks may also be purchased in keeping with fund objectives. Securities may be sold for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

In pursuing its investment objective, the fund has the discretion to deviate from its normal investment criteria. These situations might arise when the adviser believes a security could increase in value for a variety of reasons, including an extraordinary corporate event, a new product introduction or innovation, a favorable competitive development, or a change in management.

Principal Risks As with any mutual fund, there is no guarantee that the fund will achieve its objective. The fund's share price fluctuates, which means you could lose money by investing in the fund. The principal risks of investing in this fund are summarized as follows:

Active management risks The investment adviser's judgments about the attractiveness, value, or potential appreciation of the fund's investments may prove to be incorrect. The fund could underperform other funds with a similar benchmark or similar objectives and investment

strategies if the fund's overall investment selections or strategies fail to produce the intended results.

Risks of U.S. stock investing Common stocks generally fluctuate in value more than bonds and may decline significantly over short time periods. There is a chance that stock prices overall will decline because stock markets tend to move in cycles, with periods of rising and falling prices. The value of a stock in which the fund invests may decline due to general weakness in the U.S. stock market, such as when the U.S. financial markets decline, or because of factors that affect a particular company or industry.

Investment style risks Different investment styles tend to shift in and out of favor depending on market conditions and investor sentiment. Because the fund may hold stocks with either growth or value characteristics, it could underperform other stock funds that take a strictly growth or value approach to investing when one style is currently in favor. Growth stocks tend to be more volatile than the overall stock market and can have sharp price declines as a result of earnings disappointments. Value stocks carry the risk that the market will not recognize their intrinsic value or that they are actually appropriately priced at a low level.

Market capitalization risks The fund's focus on large companies subjects the fund to the risks that larger companies may not be able to attain the high growth rates of successful smaller companies, especially during strong economic periods, and that they may be less capable of responding quickly to competitive challenges and industry changes. Because the fund may invest in companies of any size, its share price could be more volatile than a fund that invests only in large companies. Small and medium-sized companies typically have less experienced management, narrower product lines, more limited financial resources, and less publicly available information than larger companies.

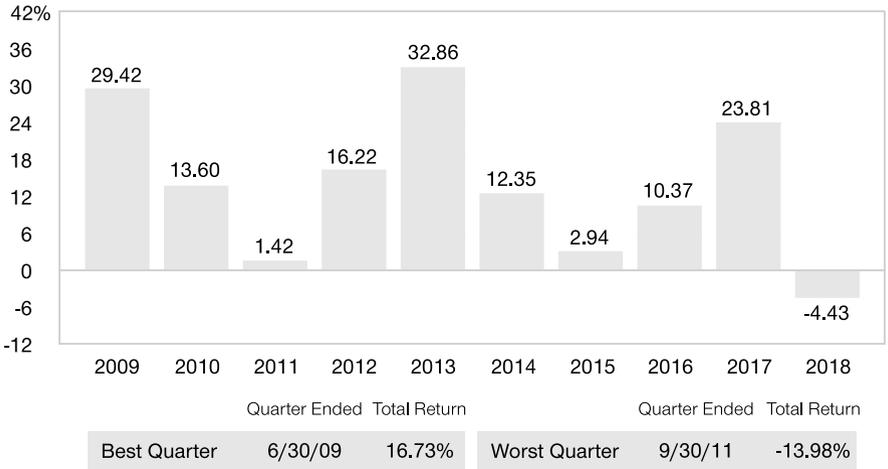

Foreign investing risks The fund's investments in foreign holdings may be adversely affected by local, political, social, and economic conditions overseas, greater volatility, reduced liquidity, or decreases in foreign currency values relative to the U.S. dollar.

Performance The following performance information provides some indication of the risks of investing in the fund. The fund's performance information represents only past performance (before and after taxes) and is not necessarily an indication of future results.

The following bar chart illustrates how much returns can differ from year to year by showing calendar year returns and the best and worst calendar quarter returns during those years for the fund.

INSTITUTIONAL U.S. STRUCTURED RESEARCH FUND

Calendar Year Returns

The following table shows the average annual total returns for the fund, and also compares the returns with the returns of a relevant broad-based market index, as well as with the returns of one or more comparative indexes that have investment characteristics similar to those of the fund, if applicable.

In addition, the table shows hypothetical after-tax returns to demonstrate how taxes paid by a shareholder may influence returns. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their fund shares through tax-deferred arrangements, such as a 401(k) account or an IRA.

Average Annual Total Returns

| | Periods ended December 31, 2018 | | | Inception date |
|--|------------------------------------|---------|----------|-------------------|
| | 1 Year | 5 Years | 10 Years | |
| Institutional U.S. Structured Research Fund | | | | 10/31/2007 |
| Returns before taxes | -4.43 % | 8.60 % | 13.27 % | |
| Returns after taxes on distributions | -7.11 | 5.88 | 11.65 | |
| Returns after taxes on distributions and sale of fund shares | -0.77 | 6.49 | 10.96 | |
| S&P 500 Index (reflects no deduction for fees, expenses, or taxes) | -4.38 | 8.49 | 13.12 | |
| Lipper Large-Cap Core Funds Index | -5.13 | 7.33 | 12.09 | |

Updated performance information is available through troweprice.com.

Purchase and Sale of Fund Shares

The fund generally requires a \$1 million minimum initial investment and there is no minimum for additional purchases, although the initial investment minimum may be waived for certain types of accounts held through a retirement plan, financial advisor, or other financial intermediary.

For investors holding shares of the fund directly with T. Rowe Price, you may purchase, redeem, or exchange fund shares by mail or by telephone (1-800-638-8790).

If you hold shares through a financial intermediary or retirement plan, you must purchase, redeem, and exchange shares of the fund through your intermediary or retirement plan. You should check with your intermediary or retirement plan to determine the investment minimums that apply to your account.

Tax Information

Any dividends or capital gains are declared and paid annually, usually in December. Redemptions or exchanges of fund shares and distributions by the fund, whether or not you reinvest these amounts in additional fund shares, may be taxed as ordinary income or capital gains unless you invest through a tax-deferred account (in which case you will be taxed upon withdrawal from such account).
