T. ROWE PRICE

Maryland Tax-Free Money Fund Investor Class I Class

The Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the adequacy of this prospectus. Any representation to the contrary is a criminal offense.

Before you invest, you may want to review the fund's prospectus, which contains more information about the fund and its risks. You can find the fund's prospectus, shareholder reports, and other information about the fund online at troweprice.com/prospectus. You can also get this information at no cost by calling **1-800-638-5660**, by sending an e-mail request to info@troweprice.com, or by contacting your financial intermediary. This Summary Prospectus incorporates by reference the fund's prospectus, dated July 1, 2019, as amended or supplemented, and Statement of Additional Information, dated July 1, 2019, as amended or supplemented.

Beginning on January 1, 2021, as permitted by SEC regulations, paper copies of the T. Rowe Price funds' annual and semiannual shareholder reports will no longer be mailed, unless you specifically request them. Instead, shareholder reports will be made available on the funds' website (troweprice.com/prospectus), and you will be notified by mail with a website link to access the reports each time a report is posted to the site.

If you already elected to receive reports electronically, you will not be affected by this change and need not take any action. At any time, shareholders who invest directly in T. Rowe Price funds may generally elect to receive reports or other communications electronically by enrolling at troweprice.com/paperless or, if you are a retirement plan sponsor or invest in the funds through a financial intermediary (such as an investment advisor, broker-dealer, insurance company, or bank), by contacting your representative or your financial intermediary.

You may elect to continue receiving paper copies of future shareholder reports free of charge. To do so, if you invest directly with T. Rowe Price, please call T. Rowe Price as follows: IRA, nonretirement account holders, and institutional investors, **1-800-225-5132**; small business retirement accounts, **1-800-492-7670**. If you are a retirement plan sponsor or invest in the T. Rowe Price funds through a financial intermediary, please contact your representative or financial intermediary, or follow additional instructions if included with this document. Your election to receive paper copies of reports will apply to all funds held in your account with your financial intermediary or, if you invest directly in the T. Rowe Price funds, with T. Rowe Price. Your election can be changed at any time in the future.

Investment Objective

The fund seeks to provide preservation of capital, liquidity, and, consistent with these objectives, the highest level of income exempt from federal and Maryland state and local income taxes.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the fund. You may also incur brokerage commissions and other charges when buying or selling shares of the fund, which are not reflected in the table.

Fees and Expenses of the Fund

	Investor Class	I Class
Shareholder fees (fees paid directly from your investment)		
Maximum account fee	\$20 ^a	—
Annual fund operating expenses (expenses that you pay each year as a percentage of the value of your investment)		
Management fees	0.39% ^b	0.39% ^b
Distribution and service (12b-1) fees	—	—
Other expenses	0.44	0.31 ^f
Total annual fund operating expenses	0.83 ^c	0.70 ^c
Fee waiver/expense reimbursement ^d	(0.42) ^{b,e}	(0.37) ^{b,f}
Total annual fund operating expenses after fee waiver/expense reimbursement	0.41^{b,e}	0.33^{b,f}

^a Subject to certain exceptions, accounts with a balance of less than \$10,000 are charged an annual \$20 fee.

^b T. Rowe Price Associates, Inc., has contractually agreed (at least through June 30, 2020) to waive a portion of its management fees in order to limit the fund's management fees to 0.28% of the fund's average daily net assets. Thereafter, this agreement will automatically renew for one-year terms unless terminated by the fund's Board of Directors. Any fees waived under this agreement are not subject to reimbursement to T. Rowe Price Associates, Inc., by the fund.

^c The figure shown in the fee table does not match the "Gross expenses before waivers/payments by Price Associates" shown in the Financial Highlights table, as that figure reflects the effects of a management fee waiver agreement.

^d As a result of class-specific expense limitations, T. Rowe Price Associates, Inc. waived fund-level expenses proportionally across all classes.

^e T. Rowe Price Associates, Inc., has contractually agreed (through June 30, 2021) to waive its fees and/or bear any expenses (excluding interest; expenses related to borrowings, taxes, and brokerage; nonrecurring, extraordinary expenses; and acquired fund fees and expenses) that would cause the class' ratio of expenses to average daily net assets to exceed 0.55%. The agreement may be terminated at any time after June 30, 2021, with approval by the fund's Board of Directors. Any fees waived and expenses paid under this agreement (and a previous limitation of 0.55%) are subject to reimbursement to T. Rowe Price Associates, Inc., by the fund whenever the class' expense ratio is below 0.55%. However, no reimbursement will be made more than three years from the date such amounts were initially waived or reimbursed. The fund may only make repayments to T. Rowe Price Associates, Inc., if such repayment does not cause the class' expense ratio (after the repayment is taken into account) to exceed the lesser

of: (1) the expense limitation in place at the time such amounts were waived; or (2) the class' current expense limitation.

^f T. Rowe Price Associates, Inc., has contractually agreed (through June 30, 2021) to pay the operating expenses of the fund's I Class excluding management fees; interest; expenses related to borrowings, taxes, and brokerage; nonrecurring, extraordinary expenses; and acquired fund fees and expenses ("I Class Operating Expenses"), to the extent the I Class Operating Expenses exceed 0.05% of the class' average daily net assets. The agreement may be terminated at any time after June 30, 2021, with approval by the fund's Board of Directors. Any expenses paid under this agreement are subject to reimbursement to T. Rowe Price Associates, Inc., by the fund whenever the fund's I Class Operating Expenses are below 0.05%. However, no reimbursement will be made more than three years from the date such amounts were initially waived or reimbursed. The fund may only make repayments to T. Rowe Price Associates, Inc., if such repayment does not cause the I Class Operating Expenses (after the repayment is taken into account) to exceed the lesser of: (1) the limitation on I Class Operating Expenses in place at the time such amounts were waived; or (2) the current expense limitation on I Class Operating Expenses.

Example This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods, that your investment has a 5% return each year, and that the fund's operating expenses remain the same. The example also assumes that an expense limitation arrangement currently in place is not renewed; therefore, the figures have been adjusted to reflect fee waivers or expense reimbursements only in the periods for which the expense limitation arrangement is expected to continue. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 year	3 years	5 years	10 years
Investor Class	\$42	\$190	\$387	\$956
I Class	34	159	326	810

Investments, Risks, and Performance

Principal Investment Strategies The fund will invest at least 65% of its total assets in Maryland municipal securities, and at least 80% of the fund's income is expected to be exempt from federal and Maryland state and local income taxes. The fund is a retail money market fund managed in compliance with Rule 2a-7 under the Investment Company Act of 1940.

The securities purchased by the fund are subject to the maturity, credit quality, diversification, liquidity, and other requirements of Rule 2a-7. All securities purchased by the fund present minimal credit risk in the opinion of T. Rowe Price. The fund is managed to provide a stable share price of \$1.00 by investing in high-quality U.S. dollar-denominated municipal money market securities. Money market securities are generally high-quality, short-term obligations issued by companies or governmental entities. The fund's weighted average maturity will not exceed 60 calendar days, the fund's weighted average life will not exceed 120 calendar days, and the fund will not purchase any security with a remaining maturity longer than 397 calendar days (unless otherwise permitted by Rule 2a-7, such as certain variable and floating rate instruments). When calculating its weighted average maturity, the fund may shorten its maturity by using the interest rate resets of certain adjustable rate securities. The fund may not take into account these resets when calculating its weighted average life.

In selecting securities for the fund, the portfolio manager may examine relationships among yields of various types and maturities of money market securities in the context of interest rate outlooks. The fund's yield will fluctuate with changes in short-term interest rates.

Up to 20% of the fund's income could be derived from securities that are subject to the alternative minimum tax.

The fund may invest a significant portion of assets in securities that are not general obligations of the state. These may be issued by local governments or public authorities and are rated according to their particular creditworthiness, which may vary from the state's general obligation securities. From time to time, the fund may invest a significant portion of its assets in sectors with special risks, such as health care, transportation, and utilities, as well as private activity bonds (including industrial revenue bonds), which are municipal bonds issued by a government agency on behalf of a private sector company and, in most cases, are not backed by the credit of the issuing municipality. The fund may at times invest more than 25% of its net assets overall in industrial revenue bonds, but investments in industrial revenue bonds related to the same industry may not exceed 25% of the fund's net assets.

Due to seasonal variations in the supply of suitable Maryland municipal securities, the fund may invest in other municipal securities whose interest is exempt from federal but not Maryland income taxes. While efforts will be made to minimize such investments, they could comprise up to 10% of the fund's annual income.

The fund may sell holdings for a variety of reasons, such as to adjust the portfolio's average maturity, duration, or overall credit quality, or to shift assets into and out of higher- or lower-yielding securities or certain sectors.

In accordance with the requirements for "retail money market funds" under Rule 2a-7, the fund has implemented policies and procedures designed to limit accounts to only those beneficially owned by natural persons. The fund has also obtained assurances from financial intermediaries that sell the fund that they have developed adequate procedures to limit accounts to only those beneficially owned by natural persons. Any new investors wishing to purchase shares will be required to demonstrate eligibility (for example, by providing their Social Security number).

Pursuant to Rule 2a-7, if the fund's weekly liquid assets fall below 30% of its total assets, the fund's Board of Directors, in its discretion, may impose liquidity fees of up to 2% of the value of the shares redeemed or temporarily suspend redemptions from the fund for up to 10 business days during any 90-day period (i.e., a "redemption gate"). In addition, if the fund's weekly liquid assets fall below 10% of its total assets at the end of any business day, the fund must impose a 1% liquidity fee on shareholder redemptions unless the fund's Board of Directors determines that not doing so is in the best interests of the fund. Pursuant to Rule 2a-7, weekly liquid assets include cash, U.S. Treasuries, other government securities with remaining maturities of 60 days or less, or securities that mature or are subject to a demand feature within five business days.

Principal Risks As with any mutual fund, there can be no guarantee the fund will achieve its objective. You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. T. Rowe Price Associates, Inc. has no legal obligation to provide financial support to the fund, and you should not expect that T. Rowe Price Associates, Inc. will provide financial support to the fund at any time.

Money market funds have experienced significant pressures from shareholder redemptions, issuer credit downgrades, illiquid markets, and historically low yields on the securities they can hold. There have been a very small number of money market funds in other fund complexes that have "broken the buck," which means that those funds' investors did not receive \$1.00 per share for their investment in those funds. The potential for realizing a loss of principal in the fund could derive from:

Credit risks An issuer of a debt instrument could suffer an adverse change in financial condition that results in a payment default (failure to make scheduled interest or principal payments), rating downgrade, or inability to meet a financial obligation. Although the fund only purchases securities that present minimal credit risk in the opinion of T. Rowe Price, the credit quality of the fund's holdings could change rapidly during periods of market stress.

Interest rate risks A decline in interest rates may lower the fund's yield, or a rise in the overall level of interest rates may cause a decline in the prices of fixed income securities held by the fund. The fund's yield will vary; it is not fixed for a specific period like the yield on a bank certificate of deposit. This is a disadvantage when interest rates are falling because the fund would have to reinvest at lower interest rates. In recent years, the U.S. and many global markets have experienced historically low interest rates. However, interest rates have begun to rise and may continue doing so, increasing the exposure of money market investors such as the fund to the risks associated with rising interest rates. A sharp and unexpected rise in interest rates could increase the likelihood that the fund's share price will drop below a dollar.

Municipal securities risks The fund may be highly impacted by events tied to the overall municipal securities markets, which can be very volatile and significantly affected by unfavorable legislative or political developments and adverse changes in the financial conditions of municipal securities issuers and the global, national, and/or local economies. Income from municipal securities held by the fund could become taxable because of changes in tax laws or interpretations by taxing authorities, or noncompliant conduct of a state municipality. Other changes in tax laws, including recent changes to individual or corporate tax rates, could alter the attractiveness and overall demand for municipal bonds. In addition, a portion of the fund's otherwise tax-exempt dividends may be taxable to those shareholders subject to the federal alternative minimum tax.

Certain sectors of the municipal bond market have special risks and could be affected by certain developments more significantly than the market as a whole. For example: health care

can be negatively impacted by rising expenses and dependency on third party reimbursements; transportation can be negatively impacted by declining revenues or unexpectedly high construction or fuel costs; utilities are subject to governmental rate regulation; and private activity bonds (including industrial development bonds) rely on project revenues and the creditworthiness of the corporate user as opposed to governmental support. Investing significantly in municipal obligations backed by revenues of similar types of industries or projects may make the fund more susceptible to developments affecting those industries and projects.

State-specific risks Economic conditions in Maryland may adversely affect the securities held by the fund. Because the fund invests primarily in securities issued by Maryland and its municipalities, it is more vulnerable to unfavorable developments in Maryland than are funds that invest in municipal securities of many states. Adverse developments in an economic sector may have far-reaching impacts on the overall Maryland municipal securities market. A bond default or credit rating downgrade, or even negative perceptions of the ability to make timely bond payments, involving only a small number of Maryland municipal securities issuers could affect the market values and marketability of all Maryland municipal securities.

As of May 1, 2019, the state of Maryland's general obligation debt was rated Aaa by Moody's Investors Service, Inc. (Moody's) and AAA by S&P Global Ratings (S&P) and Fitch Ratings, Inc. (Fitch). All three agencies have assigned a stable outlook.

Liquidity risks The fund may not be able to sell a holding in a timely manner at its current carrying value. The fund may experience heavy redemptions, particularly during periods of declining or illiquid markets, which could cause the fund to liquidate its assets at inopportune times or at a depressed value and affect the fund's ability to maintain a \$1.00 share price. The secondary market for certain municipal bonds tends to be less developed and have lower overall liquidity than many other securities markets, which may adversely affect the fund's ability to sell such municipal bonds at attractive prices. In addition, the fund's Board of Directors has discretion to temporarily suspend fund redemptions when permitted by applicable regulations, to impose a liquidity fee, or recommend the liquidation of the fund if the fund's weekly liquid assets fall below 10%.

Stable net asset value risks The fund may not be able to maintain a stable \$1.00 share price at all times. If a money market fund fails to maintain a stable net asset value, or if there is a perceived threat that a money market fund is likely to fail to maintain a stable net asset value, money market funds in general, including the fund, could experience significant redemption activity. This could reduce the market prices of securities held by the fund and make it more difficult for the fund to maintain a stable \$1.00 share price. The fund's shareholders should not rely on or expect the fund's investment adviser or an affiliate to purchase distressed assets from the fund, enter into capital support agreements with the fund, make capital infusions into the fund, or take other actions to help the fund maintain a stable \$1.00 share price.

Redemption risks The fund may be subject to periods of increased redemptions that could cause the fund to sell its assets at disadvantageous times or at a depressed value or loss, particularly during periods of declining or illiquid markets, and that could affect the fund's

ability to maintain a stable \$1.00 share price. Periods of heavy redemptions may result in the fund’s level of weekly liquid assets falling below certain minimums required by Rule 2a-7, which may result in the fund’s Board of Directors imposing a liquidity fee or redemption gate.

Performance The following performance information provides some indication of the risks of investing in the fund. The fund’s performance information represents only past performance and is not necessarily an indication of future results.

The following bar chart illustrates how much returns can differ from year to year by showing calendar year returns and the best and worst calendar quarter returns during those years for the fund’s Investor Class. Returns for other share classes vary since they have different expenses.

MARYLAND TAX-FREE MONEY FUND

Calendar Year Returns

The fund’s return for the three months ended 3/31/19 was 0.28%.

The following table shows the average annual total returns for each class of the fund that has been in operation for at least one full calendar year, and also compares the returns with the returns of a comparative index that has investment characteristics similar to those of the fund.

Average Annual Total Returns

Investor Class	Periods ended December 31, 2018				Inception date
	1 Year	5 Years	10 Years	Since inception	
I Class	1.00 %	0.27 %	0.15 %	— %	03/30/2001
Lipper Other States Tax-Exempt Money Market Funds Average	1.08	—	—	0.92 ^a	07/06/2017
	0.96	0.31	0.18	0.80 ^b	

^a Return since 7/6/17.

^b Return since 6/30/17.

Management

Investment Adviser T. Rowe Price Associates, Inc. (T. Rowe Price or Price Associates)

Portfolio Manager	Title	Managed Fund Since	Joined Investment Adviser
Joseph K. Lynagh	Chairman of Investment Advisory Committee	2001	1990

Purchase and Sale of Fund Shares

The fund (other than the I Class) generally requires a \$2,500 minimum initial investment (\$1,000 minimum initial investment if opening an IRA, a custodial account for a minor, or a small business retirement plan account). Additional purchases generally require a \$100 minimum. These investment minimums generally are waived for financial intermediaries and certain employer-sponsored retirement plans submitting orders on behalf of their customers.

The I Class requires a \$1 million minimum initial investment and there is no minimum for additional purchases, although the initial investment minimum generally is waived for financial intermediaries, retirement plans, and certain institutional client accounts for which T. Rowe Price or its affiliate has discretionary investment authority.

For investors holding shares of the fund directly with T. Rowe Price, you may purchase, redeem, or exchange fund shares by mail; by telephone (1-800-225-5132 for IRAs and nonretirement accounts; 1-800-492-7670 for small business retirement plans; and 1-800-638-8790 for institutional investors and financial intermediaries); or, for certain accounts, by accessing your account online through troweprice.com.

If you hold shares through a financial intermediary or retirement plan, you must purchase, redeem, and exchange shares of the fund through your intermediary or retirement plan. You

should check with your intermediary or retirement plan to determine the investment minimums that apply to your account.

Tax Information

The fund declares dividends daily and pays them on the first business day of each month. Any capital gains are declared and paid annually, usually in December. The fund intends to distribute income that is exempt from federal and Maryland income taxes. However, a portion of the fund's distributions may be subject to income taxes or the alternative minimum tax. A redemption or exchange of fund shares, and any capital gains distributed by the fund, may be taxable.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the fund through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
