

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Continental European Equity Fund

a sub-fund of T. Rowe Price Funds SICAV

Class I (ISIN: LU0285832068)

Management company: T. Rowe Price (Luxembourg) Management S.à r.l.

Objectives and Investment Policy

Objective To increase the value of its shares, over the long term, through growth in the value of its investments.

Portfolio securities The fund is actively managed and invests mainly in a diversified portfolio of stocks of companies in Europe (excluding the UK). The fund may use derivatives for hedging and efficient portfolio management.

Investment process The investment manager's approach is to:

- Use fundamental research to identify and assess long-term investment opportunities, looking for companies with high returns on capital and capable of providing sustainable earnings across the market cycle.
- Apply a style-agnostic, focus on quality, avoiding style constraints and investing in quality companies while maintaining a balanced portfolio through market cycles.
- Use a disciplined approach to valuation, seeking to buy companies at a clear discount to their intrinsic value.
- Use a risk management approach assisted by diversification and quantitative analysis.

Benchmark FTSE All World Developed Europe Ex-UK Index. For currency hedged share classes, the benchmark index may be hedged to the currency of that share class. The investment manager is not constrained by any, sector and/or individual security weightings relative to the benchmark index and has complete freedom to invest in securities that do not form part of the benchmark. However, at times, market conditions may result in the fund's performance being more closely aligned with that of the benchmark.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The value of an investment in the fund can go up and down. When you sell your shares, they may be worth less than what you paid for them. If your currency as an investor is different from the subscription currency of the fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The risk/reward rating above is based on medium-term volatility (actual or estimated variations in the fund's share price over five years) but is not a reliable indicator of future risk reward profile.

The lowest category does not mean a risk-free investment.

The fund is in the category shown because it invests in a segment of the market that is moderately volatile.

The fund's risk level reflects the following:

- As a class, stocks carry higher risks than money market securities and bonds.

MAIN RISKS TYPICALLY ASSOCIATED WITH ORDINARY MARKET CONDITIONS

The fund's main risks are at least partially reflected in the risk/reward number. The most important of these risks are:

Capital erosion When insufficient income is received by the fund, charges may be paid against capital. Investors should be aware that if deductions are made from capital, this will result in capital erosion and constrain capital growth.

Small and mid cap stock Stocks of small and mid-size companies can be more volatile than stocks of larger companies.

TERMS TO UNDERSTAND

Actively managed In an actively managed fund, the investment manager has discretion over the composition of its portfolio, subject to the stated investment objectives and policy, and may have varying degrees of freedom to deviate from the constituent holdings, country or sector weightings of any benchmark index.

Equities (stocks) Securities that represent partial ownership of a company.

Derivatives Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

Hedging Seeking to reduce or cancel out exposure to various investment risks.

Designed for Investors who plan to invest for the medium to long term.

The Sub-Fund may appeal to investors who:

- are interested in investment growth
- understand and can accept the risks of the fund, including the risks of investing in equities.

Income generated by the fund is reinvested and included in the value of its shares.

Orders to buy, switch and redeem shares are ordinarily processed any day that is a full bank business day in Luxembourg.

Orders received and accepted by 13:00 Luxembourg time on a business day will generally be processed that day.

MAIN RISKS TYPICALLY ASSOCIATED WITH UNUSUAL MARKET CONDITIONS

Unusual market conditions or large unpredictable events can amplify the fund's main risks. They can also trigger other risks, such as:

Operational A fund may be subject to errors affecting valuation, pricing, accounting, tax reporting, financial reporting, and trading, among other things. In addition, in any market, but especially in emerging markets, there could be losses due to fraud, corruption, political or military actions, the seizure of assets, or other irregular events.

A more detailed description of the risks that apply to the fund is set out in the section "Risk Descriptions" in the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.75%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The **entry** and **exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your distributor or financial adviser.

The **ongoing charges** figure is based on expenses for the year ending 10/2019. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units/shares in another collective investment undertaking.

For more information about charges, please see the sections entitled "NOTES ON FUND COSTS" and "EXPENSES" in the fund's prospectus, which is available at trpfundssicavkiid.com.

Past Performance

The past performance indicated is not a reliable indicator of future performance.

The past performance calculation includes all ongoing charges, but excludes any entry charge applied.

The fund and class started to issue shares in 2007.

Past performance has been calculated in EUR.
