About this PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Equity Trustees Limited ("Equity Trustees", "we" or "Responsible Entity") and is a summary of the significant information relating to an investment in the T. Rowe Price Global Equity (Hedged) Fund (the "Fund"). It contains a number of references to important information (including a glossary of terms) contained in the T. Rowe Price Funds Reference Guide ("Reference Guide"), which forms part of this PDS. You should carefully read and consider both the information in this PDS, and the information in the Reference Guide, before making a decision about investing in the Fund.

The information provided in this PDS is general information only and does not take account of your personal objectives, financial situation or needs. You should obtain financial and taxation advice tailored to your personal circumstances and consider whether investing in the Fund is appropriate for you in light of those circumstances.

The offer to which this PDS relates is only available to persons receiving this PDS in Australia and Wholesale Investors (as defined in the Reference Guide) receiving this PDS (electronically or otherwise) in New Zealand who have completed a Wholesale Investor Certificate attached to the Application Form. New Zealand investors must read the T. Rowe Price Funds New Zealand Wholesale Investors Fact Sheet ("New Zealand Fact Sheet"). All references to dollars or "\$" in this PDS are to Australian dollars.

This PDS has not been, and will not be, lodged with the Registrar of Financial Service Providers in New Zealand, and is not a Product Disclosure Statement under the Financial Markets Conduct Act 2013 (NZ). New Zealand Wholesale Investors wishing to invest in the Fund should be aware that there may be different tax implications of investing in the Fund and should seek their own tax advice as necessary.

This PDS does not constitute a direct or indirect offer of securities in the US or to any US Person as defined in Regulation S under the US Securities Act of 1933 as amended ("US Securities Act"). The Units in the Fund have not been registered under the United States Securities Act of 1933, as amended, or under the securities laws of any state of the United States and the Fund has not been and will not be registered under the United States Investment Company Act of 1940, as amended. Accordingly, unless Equity Trustees is satisfied that Units can be allotted without breaching United States securities or commodities laws, Units may not be directly or indirectly offered or sold in the United States of America, or any of its territories or possessions or areas subject to its jurisdiction, or to or for the benefit of a US person.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed T. Rowe Price Australia Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

T. Rowe Price Australia Limited

The Investment Manager is a subsidiary of the Baltimore-based T. Rowe Price Group, Inc. which is a global investment management organization with \$1,410.9 billion in assets under management as of June 30, 2018. T. Rowe Price provides a broad array of mutual funds, subadvisory services, and separate account management for individual and institutional investors, retirement plans, and financial intermediaries. The organisation also offers sophisticated investment planning and guidance tools. T. Rowe Price's disciplined, risk-aware investment approach focuses on diversification, style consistency, and fundamental research.

2. How the T. Rowe Price Global Equity (Hedged) Fund Works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in this PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$500,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

T. Rowe Price Australia Limited
C/- LINK Market Services Limited
PO Box 3721
Rhodes NSW 2138

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for the buy spread ("Buy Spread"). For further details on the Buy Spread, please refer to the paragraph headed "Buy/Sell Spread" under Section 6.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$100,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income as at 30 June each year. Distributions are calculated effective the last day of the distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the New Zealand Fact Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

T. Rowe Price Australia Limited
C/- LINK Market Services Limited
PO Box 3721
Rhodes NSW 2138

Fax: +612 9287 0375

The minimum withdrawal amount is \$100,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 14 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for the sell spread ("Sell Spread"). For further details on the Sell Spread please refer to the paragraph headed "Buy/Sell Spread" under Section 6.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$500,000 as a result of processing your withdrawal request.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the T. Rowe Price Global Equity (Hedged) Fund

An investment in the Fund provides the following benefits and features:

- exposure to larger capitalization global equities that are representative of the highest conviction securities held across sector and/or regional portfolios managed by T. Rowe Price.
- a currency hedging overlay strategy that aims to reduce the Fund's exposure to fluctuations between its currency of denomination (ie AUD) and the currencies of the Fund's investments.
- access to the expertise of T. Rowe Price which has a team of senior investment professionals that have a long track record of investing in sector or regional specialty portfolios and that provide investment insights and facilitate the comparison of stocks on a global basis. The extensive experience of this team is invaluable in its ability to effectively identify strong investment candidates from the universe of potential mid- to large-cap securities.
- access to the research of the firm's global research platform of regional and sector specialists. The diversity of the team and their involvement in the industries they cover ensure they are experts in their respective sectors.
- portfolios are constructed from the bottom-up, and T. Rowe Price looks for companies with the potential either for growth or relative improvement, located in industries where the outlook is becoming more attractive. T. Rowe Price believes bottom-up stock selection supported by proprietary, fundamental research can uncover and exploit anomalies among global equities, and is the key driver of value-added active management. T. Rowe Price's focus and commitment to fundamental research gives the firm an information edge that is a powerful competitive advantage.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Active management

Typically, the Investment Manager actively seeks attractive securities to invest in, rather than investing in a predetermined basket of securities, such as a basket of securities that reflects an index. Consequently, as the Fund does not fully replicate the securities by reference to which the benchmark index is calculated, the Fund may underperform relative to its stated benchmark.

Concentration risk

Concentration of investments in the Fund (between individual investments and types of investments) will reduce the potential benefit of diversification. The potential benefit of diversification is to reduce volatility of investments.

Currency risk

The Fund may invest in securities denominated in currencies other than Australian dollars. If these currencies change in value relative to the Australian dollar, the value of the investment can change. The Fund, whose strategy includes currency hedging, will, however, seek to minimise or remove some of this risk.

Derivatives risk

There are risks associated with using futures, swaps, options and other types of Derivatives as these instruments may expose the Fund to leverage, are relatively less liquid and could result in losses in excess of the original investment.

Emerging markets risk

There is a risk associated with investing in securities issued by companies domiciled in countries with less developed political, economic and financial systems.

Fund risk

The Fund could terminate, the fees and expenses could change, the Investment Manager or Responsible Entity could be replaced and the Investment Manager's investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying assets of the Fund themselves because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

General risks

The market price of investments may go up or down, sometimes rapidly or unpredictably. Assets may decline in value due to factors affecting markets generally or particular industries represented in the markets. The value of an investment may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, supply and demand for particular securities or instruments, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general market downturn, multiple asset classes may decline in value simultaneously. Further, changes in tax, legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of the investments of the Fund.

Hedging risk

The Investment Manager's currency hedging programme may not be successful or achieve its intended purpose. The Fund may not be fully hedged as it may prove impracticable and/or too costly to hedge the smaller currency exposures.

Individual investment risk

Individual investments of the Fund, for example, securities on a stock exchange, can and do fall in value for many reasons such as changes in a company's internal operations or management, or in its business environment. The Investment Manager aims to reduce these risks with careful analysis of research from many sources and by talking to the management of relevant companies who are responsible for changes which may impact on the Fund's investments.

Legal and regulatory risk

Legal risk is the risk of losses to the Fund occurring as a result of legal issues, principally loss due to the non-enforcement of a contract. This non-enforcement may arise from insufficient documentation, insufficient capacity or authority of a counterparty, uncertainty in relation to the interpretation of the law or unenforceability in bankruptcy or insolvency. There is also risk that laws, including taxation laws, might change, adversely affecting the ability of the Fund to achieve its objective and/or adversely affecting the Fund's performance.

Liquidity risk

There may be times when securities may not be readily saleable (for example a securities exchange imposed limit on price fluctuations on a particular day in both falling and rising market conditions) and this may impact the investment and markets to which the Fund has exposure. If there is an interruption to regular trading in a market generally, or for a particular investment to which the Fund has exposure, there may be delays in processing withdrawal requests. Neither the Responsible Entity nor the Investment Manager guarantees the liquidity of the Fund's investments or of investments in the Fund.

Market risk

The value of your investment and market price of securities owned by the Fund may be affected (negatively or positively) by changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate. Neither past nor current performance should be taken as an indication or guarantee of the Fund's future performance.

Political risk

There is high political risk due to the fragile nature of some of the developing countries in which the Fund will invest. Political instability and/or political disturbances are more common in developing countries than in developed countries and can affect the value of companies domiciled in the affected country. Policy mistakes by governments in developing countries can affect the value of companies domiciled in the affected country. Severe currency depreciation can occur in developing countries.

Repatriation risk

Restrictions on repatriation of the invested capital may impact on the Fund's ability to meet the redemption requests of investors.

Underlying strength of the cash flows

Returns are affected by the underlying strength of the cash flows, balance sheets and management of the companies in which the Fund invests.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund's objective is to provide long-term capital appreciation by investing primarily in a portfolio of securities of companies which are traded, listed or due to be listed, on recognised exchanges and/or markets throughout the world. The portfolio may include investments in the securities of companies traded, listed or due to be listed, on recognised exchanges and/or markets, of developing countries. The Investment Manager may seek to achieve the Fund's objective through investment of up to 100% of the Fund's assets in one or more managed investment schemes, managed by the Investment Manager or an affiliate of the Investment Manager, that have the same or similar investment objectives as the Fund.

The Investment Manager will seek, where material and to the extent reasonable, to reduce the Fund's exposure to the fluctuation between its currency of denomination (ie AUD) and the currencies of investment of the Fund through the use of various techniques including the use of Derivatives such as forward currency contracts, currency options and futures.

Benchmark

MSCI All Country World Index ex-Australia (Hedged).

Minimum suggested time frame

The minimum suggested investment time frame for the Fund is 5 to 7 years.

Risk level of the Fund

High.

There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term. This grading is not intended to be a guarantee of any actual level of risk or an indication of likely returns.

Investor suitability

The Fund may be suitable for investors seeking the potential for moderate capital appreciation over time and greater diversification for their equity investments and can accept the volatility associated with investing in equities as well as the special risks that accompany global investing

Investment style and approach

The investment process involves determining the Fund's investment universe, which includes companies traded, listed or due to be listed, on recognised exchanges and/or markets, of countries which T Rowe Price has determined are developed or developing countries. T. Rowe Price leverages the proprietary fundamental research and analysis performed by the organisation's integrated worldwide network of more than 100 equity investment professionals to identify highly recommended companies. T. Rowe Price engages equity investment professionals to identify superior investment ideas, assess opportunities in a global sector context, overlay macroeconomic and local market factors to refine industry and company analysis, and select what they believe to be investments with the most attractive risk-reward characteristics.

The portfolio manager is actively involved with the network of equity investment professionals during the idea generation and refinement process. Ultimately, the portfolio manager applies judgment to construct a focused global portfolio consisting of the highest conviction investment ideas, typically a minimum of 90 holdings, within a diversified framework of country, sector and company guidelines.

Asset allocation

The assets of the Fund will generally be invested in accordance with the following guidelines:

- The Fund aims to invest in a portfolio of approximately 90-145 securities of companies which are traded, listed or due to be listed, on recognised exchanges and/or markets throughout the world. The Fund may achieve this through investing in securities directly and/or through a managed investment scheme managed by the Investment Manager or an affiliate of the Investment Manager that have a similar portfolio construction.

- The Fund may invest a portion of its portfolio in the securities of companies established, or conducting a significant part of their business activity, in countries which T. Rowe Price considers to be developing countries.
- The Fund may invest in derivatives to hedge and reduce its exposure to the fluctuation between its currency of denomination (ie AUD) and the currencies of investments of the Fund.
- The Fund aims to be fully invested in equities (including managed investment schemes invested in equities) however at times the Fund may hold cash or cash equivalents for transactional purposes.

Due to movements in the market or similar events, the guidelines set out above may not be adhered to from time to time. In these circumstances, the Investment Manager will seek to bring the Fund's investments within the guidelines within a reasonable period of time.

Labour, environmental, social and ethical considerations

The Investment Manager currently does not intend for the Fund to invest in or hold any companies in the tobacco industry (as per Global Industry Classification Standard). In addition, labour standards, environmental, social and ethical considerations will only be taken into account to the extent that they are not anticipated to negatively impact investment returns. Neither Equity Trustees nor the Investment Manager have a formal requirement for considering how these considerations impact an investment decision or will be taken into account.

Fund performance

Up to date information on the performance of the Fund will be available by calling the Investment Manager on +61 2 8667 5707. A free of charge paper copy of the information will also be available on request. Past performance is not necessarily a guide to future performance.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	Amount
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil

Management costs	
The fees and costs for managing your investment ¹	Management fees: 1.20% p.a. of the NAV of the Fund ² Indirect costs: 0.00% p.a. of the NAV of the Fund ³

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

³ The indirect costs are calculated and incorporate estimated amounts with reference to the relevant costs incurred during financial year ended 30 June 2018. See "Indirect costs" below for more information.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund. Management costs include management fees and indirect costs.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through Buy/Sell Spreads).

Management fees

The management fees of 1.20% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management fees at no additional charge to you.

The management fees shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Indirect costs

Indirect costs include fees and other management costs (if any) arising from underlying funds and, if applicable, a reasonable estimate of the cost of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy. Indirect costs are reflected in the unit price of the Fund and borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

The estimated components of the Fund's indirect costs are based on the financial year ended 30 June 2018.

Actual indirect costs for future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, and the costs of derivatives used for hedging purposes (if applicable). This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

During the financial year ended 30 June 2018, the total transaction costs for the Fund were estimated to be 0.41% of the NAV of the Fund, of which 55.28% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0.19% p.a. However, such costs for future years may differ.

Buy/Sell Spread

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. As at the date of this PDS, the estimated Buy/Sell Spread is 0.25% upon entry and 0.20% upon exit. The Buy/Sell Spread is reviewed periodically and may be changed at any time by the Responsible Entity without providing notice to investors. You should contact the investment manager on +612 8667 5707 prior to making an investment or withdrawal to obtain the current Buy/Sell Spread. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients.

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – T. Rowe Price Global Equity (Hedged) Fund

BALANCE OF \$500,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs Comprising:	1.20% p.a.	And , for every \$500,000 you have in the Fund you will be charged \$6,000.00 each year comprising:
Management fees:	1.20% p.a.	\$6,000
Indirect costs:	0.00% p.a.	\$0
Equals Cost of Fund		If you had an investment of \$500,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$6,000.00* What it costs you will depend on the fees you negotiate.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$500,000 balance only.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

Further reading...

You should read the important information about Indirect costs under the "Additional information on fees and costs" section in the Reference Guide before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

T. Rowe Price Australia Limited
C/- LINK Market Services Limited
PO Box 3721
Rhodes NSW 2138

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Complaints resolution

Equity Trustees has an established complaints handling process and is committed to properly considering and resolving all complaints. If you have a complaint about your investment, please contact us on:

Phone: 1300 133 472
Post: Equity Trustees Limited
GPO Box 2307, Melbourne VIC 3001
Email: compliance@eqt.com.au

We will acknowledge receipt of the complaint as soon as possible and in any case within 3 days of receiving the complaint. We will seek to resolve your complaint as soon as practicable but not more than 45 days after receiving the complaint.

If you are not satisfied with our response to your complaint, you may be able to lodge a complaint with the Financial Ombudsman Service ("FOS") or from 1 November 2018, direct the complaint to the Australian Financial Complaints Authority ("AFCA"), which will replace FOS.

Contact details are:

Online: www.fos.org.au or www.afca.org.au

Phone: FOS on 1800 367 287 or AFCA on 1800 931 678

Email: info@fos.org.au or info@afca.org.au

Post: GPO Box 3, Melbourne VIC 3001.

The external dispute resolution body is established to assist you in resolving your complaint where you have been unable to do so with us. However, it's important that you contact us first.

9. Other information

Consent

The Investment Manager has given and, as at the date of this PDS, has not withdrawn:

- its written consent to be named in this PDS as the Investment Manager of the Fund; and
- its written consent to the inclusion of the statements made about it which are specifically attributed to it, in the form and context in which they appear.

The Investment Manager has not otherwise been involved in the preparation of this PDS or caused or otherwise authorised the issue of this PDS. None of the Investment Manager nor their employees or officers accept any responsibility arising in any way for errors or omissions, other than those statements for which they have provided their written consent to Equity Trustees for inclusion in this PDS.

Commodity Futures Trading Commission

With respect to the Fund; Equity Trustees is exempt from registration with the U.S. Commodity Futures Trading Commission ("CFTC") as a commodity pool operator ("CPO") pursuant to CFTC Rule 4.13(a)(3). Therefore, unlike a registered CPO, the Funds' disclosure documents and certified annual reports to investors are not subject to CFTC requirements.

Further reading

You should read the important information in the Reference Guide about:

- Your privacy;
- The Constitution;
- Anti-Money Laundering and Counter Terrorism Financing laws ("AML/CTF laws");

- I am/We are a Wholesale Investor and am/are therefore eligible to hold units in the Fund/Trust; and
- I/We have not:
 - Offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Fund/Trust;

- Granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Fund/Trust; and
- Distributed and will not distribute, directly or indirectly, the PDS/IM or any other offering materials or advertisement in relation to any offer of units in the Fund/Trust, in each case in New Zealand, other than to a person who is a Wholesale Investor; and
- I/We will notify Equity Trustees if I/we cease to be a Wholesale Investor; and
- I/We have separately provided a signed Wholesale Investor Certification located at the end of this Application Form.
- All references to Wholesale Investor in this Declaration are a reference to Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. **Exempt investors should attach a copy of the certificate of exemption.** For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read, agree to and make the declarations above
