Past performance is not a reliable indicator of future performance.

Source for performance: T. Rowe Price. Fund performance is calculated using the official NAV with distributions reinvested, if any. The value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the fund and the currency in which you subscribed, if different. Sales charges, taxes and other locally applied costs have not been deducted and if applicable, they will reduce the performance figures.

Performance data will be displayed when a share class has more than 1 year history of returns.

The indicative benchmark of the fund is not a formal benchmark but is shown for comparison purposes.

Effective 1 January 2018, the indicative benchmark for the fund was changed to MSCI Arabian Markets & Africa 10/40 IMI Index. Prior to 1 January 2018, the indicative benchmark for the fund was S&P Emerging Market/Frontier Middle East & Africa Broad Market Index ex Israel. Prior to 30 September 2010, the indicative benchmark for the fund was MSCI Arabian Markets and Africa Index. Prior to 1 July 2009, the indicative benchmark for the fund was S&P IFCG Africa and Middle East ex-Saudi Arabia and ex-Israel. Prior to 1 September 2008, this indicative benchmark also excluded Kuwait. The benchmark changes were made because the portfolio manager viewed the new benchmark composition to be a better representation of the investment strategy of the fund. Historical benchmark representations have not been restated.

Index returns are shown with net dividends reinvested.

Risks - The following risks are materially relevant to the fund (refer to prospectus for further details):

Country risk (Saudi Arabia) - in Saudi Arabia it is necessary to use a trading account to buy and sell securities, introducing additional third-party associated risks. **Currency risk** - changes in currency exchange rates could reduce investment gains or increase investment losses. **Emerging markets risk** - emerging markets are less established than developed markets and therefore involve higher risks. **Frontier markets risk** - small market nations that are at an earlier stage of economic and political development relative to more mature emerging markets typically have limited investability and liquidity. **Sector concentration risk** - the performance of a fund that invests a large portion of its assets in a particular economic sector (or, for bond funds, a particular market segment), will be more strongly affected by events affecting that sector or segment of the fixed income market. **Small and mid-cap risk** - stocks of small and mid-size companies can be more volatile than stocks of larger companies. **Style risk** - different investment styles typically go in and out of favour depending on market conditions and investor sentiment. **Volatility risk** - the performance of the fund has a risk of high volatility.
