Past performance is not a reliable indicator of future performance.

Source for performance: T. Rowe Price. Fund performance is calculated using the official NAV with distributions reinvested, if any. The value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the fund and the currency in which you subscribed, if different. Sales charges, taxes and other locally applied costs have not been deducted and if applicable, they will reduce the performance figures.

Performance data will be displayed when a share class has more than 1 year history of returns.

The indicative benchmark of the fund is not a formal benchmark but is shown for comparison purposes.

Index returns are shown with net dividends reinvested.

Risks - The following risks are materially relevant to the fund (refer to prospectus for further details):

Style risk - different investment styles typically go in and out of favour depending on market conditions and investor sentiment. **Volatility risk** - the performance of the fund has a risk of high volatility.
