**Past performance is not a reliable indicator of future performance.**

Source for performance: T. Rowe Price. Fund performance is calculated using the official NAV with distributions reinvested, if any. Sales charges, taxes and other locally applied costs have not been deducted and if applicable, they will reduce the performance figures.

The Q class launched on 16 Oct 2013. Performance data prior to this date is for the A share class.

MSCI Index returns are shown with net dividends reinvested.

Index returns are calculated in US Dollars and converted to EUR using an exchange rate determined by an independent third party.

The indicative benchmark of the fund is not a formal benchmark but is shown for comparison purposes.

**Risks - The following risks are materially relevant to the fund (refer to prospectus for further details):**

**Currency risk** - changes in currency exchange rates could reduce investment gains or increase investment losses. **Small and mid-cap risk** - stocks of small and mid-size companies can be more volatile than stocks of larger companies. **Style risk** - different investment styles typically go in and out of favour depending on market conditions and investor sentiment.

T. Rowe Price uses the current MSCI/S&P Global Industry Classification Standard (GICS) for sector and industry reporting. T. Rowe Price will adhere to all updates to GICS for prospective reporting.

## IMPORTANT INFORMATION

**General fund risks - to be read in conjunction with the fund specific risks above.** **Capital risk** - the value of your investment will vary and is not guaranteed. It will be affected by changes in the exchange rate between the base currency of the fund and the currency in which you subscribed, if different. **Equity risk** - in general, equities involve higher risks than bonds or money market instruments. **Geographic concentration risk** - to the extent that a fund invests a large portion of its assets in a particular geographic area, its performance will be more strongly affected by events within that area. **Hedging risk** - a Fund's attempts to reduce or eliminate certain risks through hedging may not work as intended. **Investment fund risk** - investing in funds involves certain risks an investor would not face if investing in markets directly. **Management risk** - the investment manager or its designees may at times find their obligations to a fund to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably). **Operational risk** - operational failures could lead to disruptions of fund operations or financial losses.

**This factsheet is for marketing purposes only.**

The Funds are sub-funds of the T. Rowe Price Funds SICAV, a Luxembourg investment company with variable capital which is registered with Commission de Surveillance du Secteur Financier and which qualifies as an undertaking for collective investment in transferable securities ("UCITS"). Full details of the objectives, investment policies and risks are located in the prospectus which is available with the key investor information documents in English and in an official language of the jurisdictions in which the Funds are registered for public sale, together with the articles of incorporation and annual and semi-annual reports (together "Fund Documents"). Any decision to invest should be made on the basis of the Fund Documents which are available free of charge from the local representative, local information/paying agent or from authorised distributors and via [www.troweprice.com](http://www.troweprice.com). The latest fund prices are available online from Morningstar.
